ABOUT US

At Solyug Renewables, we specialize in providing complete solar power plant solutions from design and engineering to installation and commissioning. With over 6 years of experience, we have successfully delivered solar projects across India, helping homes, businesses and industries make the shift to clean, reliable and cost-effective solar energy.

MISSION

At Solyug Renewables, our mission is to make solar energy a practical choice for everyone, affordable, reliable and easy to adopt. Whether it's powering a home, fueling a business or supporting large-scale industrial needs, we bring the right mix of expertise and technology to get the job done right. We're here to help you switch to clean energy with confidence. Let's work together to build a brighter, greener future.

VISION

At Solyug Renewables, our vision is to be at the forefront of India's clean energy movement by making solar power an essential and accessible part of everyday life. We strive to create a future where homes, businesses and industries across the country rely on sustainable energy solutions that are both practical and environmentally responsible. By promoting the widespread use of solar energy, we aim to reduce carbon footprints, support energy independence and contribute to a healthier planet for future generations.

OUR SERVICES

At Solyug Renewables, we provide end-to-end solar solutions tailored for homes, businesses, and industries. Our experienced team ensures every project is executed with precision, quality, and care.

EPC (Engineering, Procurement & Construction)

- 1 Complete project execution from vision to reality under one roof.

Solar Engineering & Design

- 2 Custom system design based on site conditions, energy needs and efficiency goals.

Complete BOS (Balance of System) Supply

- 3 High-quality supply of ACDB, DCDB, Inverters, Structures, Cabling and other essential components.

Installation & Commissioning Support

- 4 Ensuring smooth installation with professional execution, on-site quality testing and full safety compliance.

Operation & Maintenance (O&M)

- 5** Timely system checks, cleaning and performance optimization for long-term results.

Project Feasibility & Site Assessment

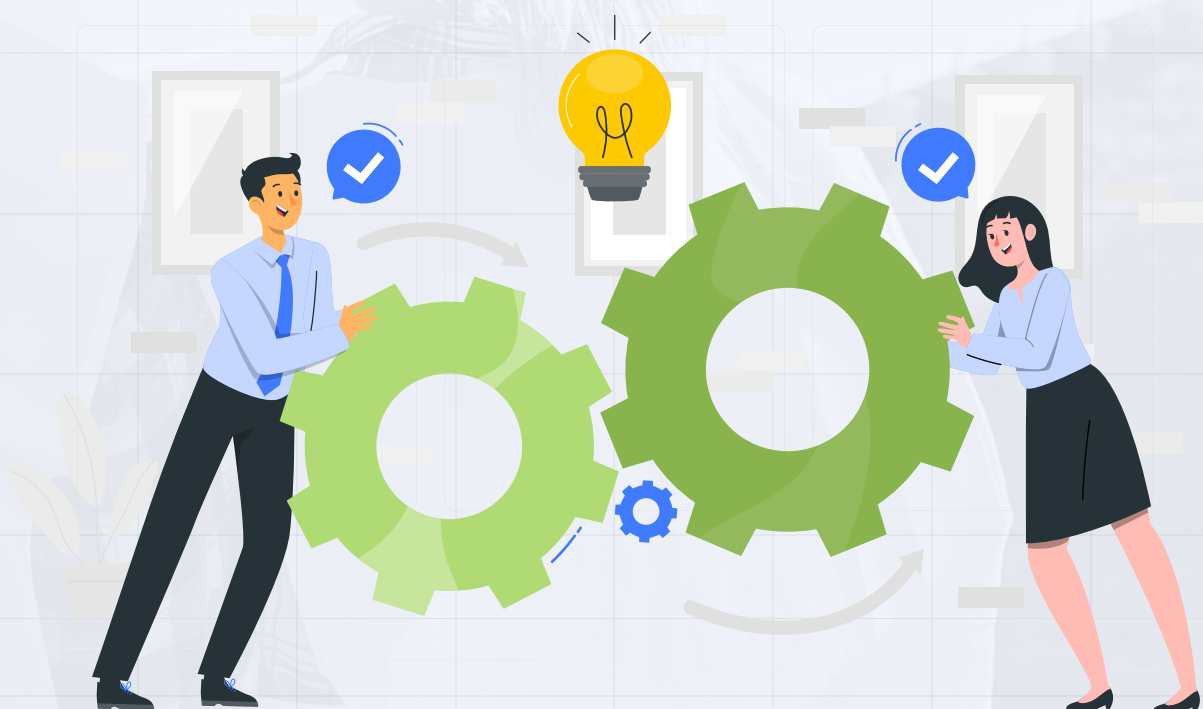

- 6** On-site surveys, load analysis and shadow studies to assess project potential.

Rooftop & Ground-Mounted Solar Projects

- 7** Customized solutions for residential rooftops, industrial rooftops, commercial buildings and open land.

Solar Consulting & Advisory

- 8** Smooth and professional installation with on-site testing and safety compliance.

STANDARD CHALLENGES IN SOLAR PROJECTS

SITE CONSTRAINTS

Shading, poor orientation and structural limitations reduce energy generation

INCORRECT SYSTEM SIZING

Oversized or undersized systems lead to inefficiencies and higher costs

LOW-QUALITY COMPONENTS

Use of substandard ACDB, DCDB and inverters causes frequent breakdowns

PROJECT DELAYS

Caused by poor planning, slow procurement and approval bottlenecks

UNSKILLED WORKFORCE

Improper installation and safety non-compliance can affect performance and longevity

LACK OF PROPER MAINTENANCE

Dust buildup, component wear and unaddressed issues reduce output over time

OUR ACTIONABLE SOLUTIONS

Comprehensive Site Analysis

We use advanced tools to evaluate shade, orientation and structure for optimal panel placement

Customized System Design

Our engineers design systems tailored to your actual energy needs for peak efficiency

High-Quality Components

We supply trusted ACDB, DCDB and other BOS items to ensure reliability and safety

Time-Bound Execution Plans

Our team follows milestone-based scheduling to minimize delays and ensure timely delivery.

Skilful Installation Team

Skilled professionals ensure installations are accurate, safe and compliant with industry standards

End-to-End Maintenance Packages

We offer scheduled cleaning, inspections and servicing to keep your system running efficiently.

WHY CHOOSE SOLYUG RENEWABLES

END-TO-END SOLUTIONS

We take care of everything, from planning & design to the final installation, so you can relax while we power your project

NATIONWIDE SERVICE

We reach you wherever you are, whether it's a small town or a big city, our team is ready to deliver across India

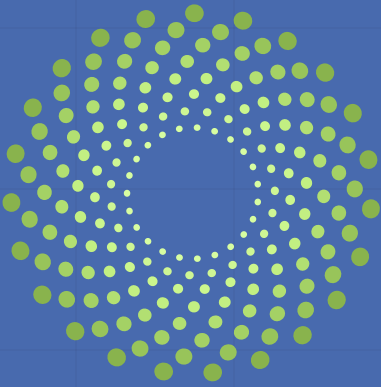

EXPERIENCED TEAM

We know solar inside and out, with years of hands-on experience, we've built systems that work and last

CUSTOMIZED DESIGNS

We don't believe in one-size-fits-all, every solar setup we create is carefully designed to match your space, needs, and goals

TRANSPARENT COMMUNICATION

We keep you informed at every step, no surprises, just clear updates and honest guidance throughout your solar journey

ENVIRONMENTALLY RESPONSIBLE

We care about more than just savings, our work is driven by a genuine commitment to cleaner energy and a better future

POST-INSTALLATION SUPPORT

We stick around even after installation, offering regular checks, support and maintenance to keep things running smoothly

QUALITY ASSURANCE

We build it to last, using reliable components and a strict quality check process to ensure your system performs for year
